

Environmental Policy

In fulfilling our Company's Mission/Vision, my team and I are committed to conducting our business in an environmentally responsible manner.

We will:

- Conduct all our operations in such a manner that protects the environment and the health of our employees, neighbours and members of the public.
- Comply with or exceed the requirements of all relevant legislation and codes of practice.
- Work in partnership with other Fujitsu companies, customers, suppliers, regulatory, advisory and voluntary bodies to promote best practice.
- Apply prevention of pollution and design for the environment principles to reduce the impacts of our processes, products and services.
- Establish, maintain and review measurable targets with the objective of continual improvement.
- Develop and maintain a comprehensive, documented and communicated environmental management system in accordance with BS EN ISO 14001:1996.
- Provide suitable education and training to achieve our objectives.
- Annually report on our environmental performance, and make this information available to the public and other interested parties on request.

S Unagami
Managing Director
